CALL FOR PARTICIPANTS

Online Training "Managing Cybersecurity"
ENTRY LEVEL

Organized by the Cyber-MAR project

> **16th June, 2021**
> **14:00 - 16:00 (CET)**

Background

One of the objectives of Cyber-MAR is to cover the training needs for all professionals (cyber-security/IT experts but also non-IT-expert personnel of ports, shipping operators and linked entities influenced by possible cascading effects) and most importantly also to raise the cyber-threat awareness level within those organisations by hands-on training. The courses will be available at different levels of complexity (entry, intermediate, advanced) in order to attract trainees with various levels of experience.

The entry-level training introduces core themes and terminology to raise awareness of cybersecurity threats to the maritime sector and prepare the audience for Intermediate level participation.

Objectives

The training is an introduction to IT security risk management from a general point of view and related to the Cyber-MAR concept, dedicated to managers who may need to know more to make informed decisions on assessing and managing the risk. We will discuss why effective cyber-attack management is essential to a business and provide some methods for managing that risk.

The goals are to raise knowledge and awareness of the maritime risk management processes allowing the participants to understand cybersecurity threats and manage the risk.

Student learning outcomes

Participants will be able to take active part in the risk management processes (e.g., methods for assessing and mitigating risk) and use critical thinking to analyse organizational patterns and relationships.

Target groups

IT managers, Security Managers from:
- Port authorities, operators
- Logistic actors
- Ship-owners
- Shipbuilding

- Terminal operators
- Ship managers
- Ship agents
- Ship Charterers

Officers from:
- Port State Control

Security Science scientific personnel from:
- Academia (Universities, Research Centres & Institutes, Laboratories)

Eligibility

Knowledge about:
- Maritime and port procedures
- IT management,
- Security management

Duration

3 hours

Costs
- No fees

Other information

Training programme will be delivered by prominent experts, in **English** language.

Participation is attested by the release of an "attendance certificate" for trainings under H2020 projects, equivalent to 1 ECTS if combined with the following intermediate training that will be held in the period starting from September 2021to December 2021.
No ECTS credits are awarded for this training.

Deadline

The application form must be submitted online before **08th June 2021, 18:00 (CET)**
