Grant Agreement Number: *833389*

Project acronym: Cyber-MAR

Project full title: Cyber preparedness actions for a holistic approach and awareness raising in the MARitime logistics supply chain

Webinar - Cybersecurity at Sea: Real Life Experiences

Webinar - Cybersecurity at Sea: Real Life Experiences

In recent years, the use of digital means is rapidly expanding throughout the whole world and the maritime industry is not an exception; shipping companies are relying on a much-extended number of computers and Information Technology (IT) applications to effectively support their business activities.

The webinar aims to discuss the main challenges of maritime cybersecurity by sharing **real-life experiences** to understand emerging threats and counter them.

It is an integral part of the Cyber-MAR training, representing a proactive opening in the maritime Cybersecurity sector.

This webinar is relevant to all port and shipping actors such Ports and Port Operators, Ship owners, Shipbuilders, Terminal Operators, Ship Managers, Ship Agents, Ship Charterers and anyone who wants to stay up to date on the latest cybersecurity developments in the maritime sector.

 No IT skills or background are required.

The webinar will be held **virtually** on **16th of June 2021 at 16:00 (CET).**

AGENDA

Date: 16.06.2021

Time: 16 :00 (CET)

Venue: Online Event
