## Workshop in Cretan Energy Conferences

### “The key role of the R&I unified approach across EU for boosting smart grids investments: The EIRIE platform”

International Conference and Exhibition 9<sup>th</sup> July, 2021

***\*The hours are in EEST(Athens time)***

The main objective of this hybrid workshop is to present for the first time the EIRIE multifunctional platform and highlight its role in supporting the needed R&I unified approach across Europe. This in a coordinated effort to intensify the investments’ rate on smart grids, storage and local energy systems, balance activities in the field across Europe, hence reinforcing the road to the low carbon economy in line with the Green Deal objectives, thus leaving no one behind!!!
