

## Cyber-MAR Final and Piraeus Pilot Event

### Conclusions and Remarks

Giorgos Papavassiliou, ICCS

16<sup>th</sup> December 2022

# Conclusions and next steps

- Discussed about cybersecurity in the maritime sector and presented the main concepts, objectives and results of the Cyber-MAR and the FORESIGHT projects
- Demonstrated the Cyber-MAR Piraeus Pilot simulating a combined cyber attack to the Port Container Terminal's IT and OT infrastructure
- Presented the impact of such attack to the port operations and the wider econometric impacts in terms of business disruption and associated economic losses
- Elaborated on the Cyber-MAR training program for cyber skills development
- Remaining Cyber-MAR activities include:
  - Implementation of the CTF challenge and two more training sessions using the Cyber-MAR platform
  - Finalisation of dissemination and exploitation activities
  - Preparation of reporting

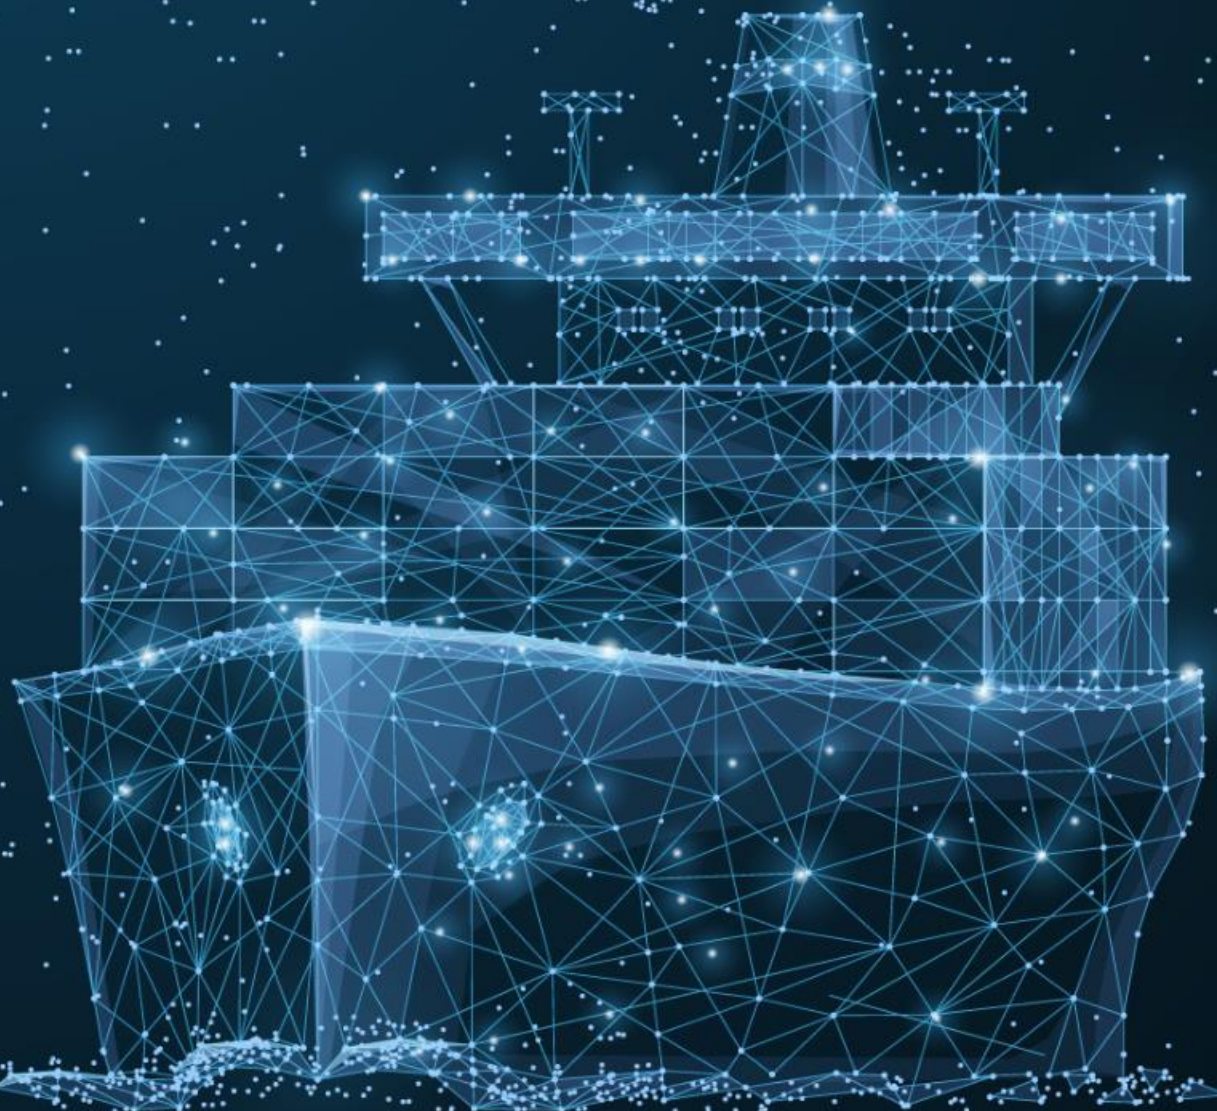

**THANK YOU FOR YOUR PARTICIPATION**
