

CALL FOR PARTICIPANTS

“Capture of the flag competition”

ENTRY-INTERMEDIATE LEVEL

Organized by the Cyber-MAR project

07th February, 2023

09:00 – 16:30 (CET)

Background

One of the objectives of Cyber-MAR is to cover the training needs for all professionals (cyber-security/IT experts but also non-IT-expert personnel of ports, shipping operators and linked entities influenced by possible cascading effects) and most importantly also to raise the cyber-threat awareness level within those organizations by hands-on training.

The courses are available at different levels of complexity (entry, intermediate, advanced) to attract trainees with various levels of experience. CTF is part of the formative offer as a playground to practically learn cyber-attack & cyber-defense techniques by gamification.

Objectives

The objective of the CTF is to demonstrate realistic and practical cyber scenarios that better inform risk management decisions.

Target groups

IT, cyber security, and OT personnel with good knowledge of IT and networks fundamentals.

IT managers, Security Managers from:

- Port authorities, operators
- Logistic actors
- Ship-owners
- Shipbuilding
- Terminal operators
- Ship managers
- Ship agents
- Ship Charterers

Officers with good knowledge of IT and networks fundamentals from:

- Port State Control

Eligibility

Prerequisites for CTF participation: cyber security awareness (and mindset), knowledge of IT and networks fundamentals and will to learn by playing.

The maximum number of participants is 20.

The acceptance of applications will be based on the chronological order of arrival.

Duration

6 hours

Costs

No fees

Other information

The CTF will be held in the English language.

Learners could be asked to install some open source software in their laptops for trying out tools in the practical activities. More information on this will be provided to accepted participants before the start of the training.

Deadline

The registration must be submitted online before **31th January 2023 12:00 (CET)**.
